- Provided a list of seven businesses worked with directly on issues including workforce training, finding reputable contractors, and help with grant/loan applications
- In partnership with the Barnes Foundation, PECCDC has selected five local artists to participate in “third space” artist residencies, a new initiative to embed artists within local businesses and nonprofits.
- 15th Annual Lancaster Avenue Jazz & Arts Festival was live streamed to over 1,000 people on Saturday, September 18th. Hosted at The Community Education Center (3500 Lancaster Ave.)
- Working with six businesses/property owners to discuss their plans to develop their respective interests on the corridor Property addresses were listed.

This study will include a SWOT Analysis (Strengths/Weakness/Opportunities/Threats) of these two dense commercial blocks and will evaluate potential development scenarios which may occur and how such projects would impact existing merchants. The final draft is nearing completion and should be ready by Q2.
- The last few months on the Lancaster Avenue commercial corridor has been a time full of ups, downs and ins and outs. This past year of being PEC’s Commercial Corridor Manager has had its fair share of surprises, pitfalls, near misses and extraordinary moments. Goal has been to home in on giving a more comprehensive look at the corridor - its strengths and weaknesses – exploring linkages for partnering/collaborating with our small business community in the months and years to come, as we continue to navigate an ongoing pandemic and struggling economy.
- On PECCDC’s Commercial Corridor there has been a myriad of challenges coming from many different angles. From civil unrest and business shutdowns to nationwide and global quarantining. It is now normal to go into stores with a mask or face covering and then only be able to use exact change or some form of digital payment system, due to the national currency shortage.
- Increased foot traffic has been noticed this past quarter, thanks in part to PEC’s partnership with The Barnes Foundation.
- Helped two microbusinesses access relief funds through LISC Philadelphia’s Small Business Relief and Recovery Fund in 2020. Both businesses were awarded \$10,000 each to support their long-term recovery efforts from COVID-19:
 - La Pearl Beauty Emporium (3857 Lancaster Avenue) - Assistance for marketing and e-commerce
 - Lancaster Pharmacy (4127 Lancaster Avenue) Assistance for landlord negotiations, marketing, and ecommerce

Quarter 2:

- Accomplishments will be reported in the next quarter.

Quarter 3:

- Corridor manager was present at a number of community meetings including a newly formed business association; work with LA21 on a “virtual mall” e-commerce initiative; and collaboration with the NAC on a “Men’s Coffee Talk” to address prevalent issues in the community
- Submitted a list of 15 properties that have expressed interest or been identified for physical improvements (façade, lighting, cameras, windows etc). The barriers to application are high for these low revenue, low profit margin businesses who have very little assistance, and it is slow going to work one-on-one with them.
- Shared information and assisted with applications to various small business grants, including grants from Commerce as well as Verizon, Comcast, Barnes Foundation, Wells Fargo, and The Merchants Fund. They also coordinated media features from ABC, on three local businesses.
- Kanvas Event Center (3870 Lancaster Avenue) began offering Karaoke on 2nd and 4th Friday evenings of the month. Nearby businesses have begun using these karaoke nights as a fun networking opportunity.
- The Community Education Center (3500 Lancaster Avenue) began offering First Tuesdays Live Latin Jazz events
- Continue to work with businessowners/property owners to discuss development plans. The following is a list of key developers we maintain regular contact with:
 - Lemuel Thornton 4401-27 Lancaster Ave., 892-94 Belmont Ave.
 - Keith Bunch, 4431-35 Lancaster Ave. (Mr. Dump Truck)
 - Nasha Bunch, 4217-19 Lancaster Ave. (BQ Lancaster Avenue)
 - Mustafa Munir, 4261 Lancaster Ave. (Sunshine Supermarket)
 - Mahari Bailey 4432, 4408-4414, 4331-33 Lancaster Ave. (<https://mahariyared.com/>)
 - Giller Realty 4400-4404 Lancaster Ave., 865, 895-97 Belmont Ave., 874-76 Lex St.
 - FullCourtDevelopment 4200 Lancaster Ave.
- WEXFORD Science Center conducted three informational sessions for a proposed commercial development at 3800/3850 Market St. The site, located at the southwest corner of 38th and Market Street, is currently a parking lot but they have plans to develop a project in two phases that will include commercial lab and office space, structured parking, ground floor retail and community spaces.
- Attended Workforce & Economic Opportunity Committee meetings via Zoom
- Attended Promise Zone WEO monthly meetings.
- Partnering with the Sister Clara Muhammad CDC on pre-development activities to turn a 1.5-acre Sister Clara Muhammad School (former Saint Tommy Moore High School) into a community-facility with an outdoor plaza, senior center, pre-K activities and meeting spaces. PECCDC is serving as a fiscal sponsor for a pre-development grant provided by the William Penn Foundation, through

which Sister Clara Muhammad CDC will produce market analysis, launch a capital campaign, and create a development plan in support of the full-square block project at 4700 Wyalusing Ave.

- In January 2021, Community partner Mount Vernon Manor CDC received a \$999,990 contract by the U.S. Department of Justice under the Byrne Criminal Justice Innovation (BCJI) Program. This contract includes \$200,000 for an anticipated 3-year contract period with PEC's Community Connectors spanning FY22 through FY24, to help plan and implement a neighborhood public safety initiative that includes targeted interventions along Lancaster Avenue.

The Enterprise Center CDC

Micro-Enterprise Assistance

4538 Market St., Philadelphia, PA 19139

Contract #: 2020131

Council District 4, Census Tract 89

The Enterprise Center CDC proposes to assist the City of Philadelphia to launch a series of business support services in the newly launched Business Support Services (BSS) program on targeted neighborhood commercial corridors. These services will be marketed through workshops and partnering CDCs to assess and respond quickly and directly to the needs of merchants currently operating on those targeted commercial corridors.

Accomplishments:

Quarter I:

- Have details about 20 businesses assisted and the type of assistance provided
- Worked with 4 businesses on security cameras
- There are currently NO actively listed properties available for rent or sale in our service area. The market is very tight right now. There are, however, some “off market” commercial spaces available for rent where we are able to leverage relationships with key property owners on a case-by-case basis for possible business attraction and tenant placement. During this quarter, we were able to work with one prominent property owner to preliminary place two business on the 5100 block of Walnut Street.
- At the end of Q4, we increased the hours of operation of our TEC-CDC Resource Center. We are now open five days a week and continue to operate as a source of support for business owners and community members. We also continue to use social media to post updates about business openings, promotions, community events and to highlight some of the work we do to serve the community.
- As part of our larger, comprehensive Main Street revitalization plan, The Enterprise Center has begun to invest in 52nd Street real estate in an effort to achieve multiple goals, including:
 - Eliminate blight and vacancy
 - Establish a stronger physical presence for our team to better support corridor small businesses and nearby community members
 - Role model community-oriented, mixed-use redevelopment to inspire like-minded investing
- One of our first projects on 52nd Street will be 277 S. 52nd St. The new building that replaces the existing long-vacant, dilapidated building will serve as a pilot for a new model of redevelopment. Since the existing structure is unsalvageable, this project will involve demolition of the old building and construction of a new, three-story building designed to fit in with the existing buildings on 52nd Street.

Quarter 2:

- Held a virtual community meeting on Thursday, December 16th. The meeting included updates on 52nd Street initiatives as well as updates on housing resources for residents. There were 22 meeting participants (including three staff members).
- Had a unique opportunity to access funding for storefront improvements, partnering with Wells Fargo via their “Hope, USA” campaign. Focusing on the 200 block of South 52nd Street, we invested more than \$700k in storefront and public space improvements. We directly assisted 16 different corridor small businesses, while providing paid work to nine different local contractors and vendors.
- In addition to the 16 businesses assisted through the Hope, USA grant listed above, worked with 15 businesses on assistance including permits and finding reputable contractors, tax and legal issues, and lease negotiation
- In December we chose to hold an all-encompassing virtual community meeting that included updates and content focused on both 52nd Street as well as resident services and broader neighborhood issues. We liked this format and may look to continue it as appropriate, although there may still be need to hold separate, more focused meetings in certain circumstances.
- Supported information collection for and dissemination of a Third Council District Holiday Shopping Guide, organized by Councilmember Gauthier’s office. This guide was very well-received, and it featured several 52nd Street businesses.
- Gave updates about a change in the corridor manager position and the start of the new manager.
- Completion of two in process creative placemaking projects, to coincidentally coincide with the Hope campaign work: one was our street pole banner project on 52nd Street.

Quarter 3:

- Gave updates and details about 11 businesses currently receiving ongoing assistance, in addition to about a dozen businesses listed previously whose projects are not yet completed.
- Reapplied and has been approved for the BSCP for TEC-CDC properties at 5241-43 Market St., which includes TEC-CDC’s interim community office and a tenant, Deluxe Donuts, in the two commercial spaces. These buildings are slated
- Reapplied and has been approved for the BSCP for TEC-CDC properties at 5241-43 Market Street, which includes TEC-CDC’s interim community office and a tenant, Deluxe Donuts, in the two commercial spaces. These buildings are slated
- Introduced a new initiative, “Biz on Wheels,” which provides mobile delivery of technical business assistance to microenterprises throughout the major business corridors in Philadelphia.
- Working with brokers and the business community to locate a new tenant for the flagship property at 24 S. 52nd St., which TEC has purchased, and is currently leased to America’s Kids through September 2022.

- To continue what occurred last quarter, TEC-CDC held another all-encompassing virtual community meeting to present TEC's 52nd St revitalization plans to the larger community as well as 52nd St. stakeholders. The Enterprise Center is fully committed to a transparent and inclusive process that fully engages the community and recognizes the need to hold conversations with the community regarding their initiatives, specifically concerning our work on 52nd Street.
- The new corridor manager, Shuja, had to continue the momentum from the end of last quarter with the continued implementation of TEC-CDC's comprehensive Main Street revitalization plan (See Quarter 1 for reference). As part of TEC's effort for fundraising and public/private partnership building, an Economic Summit was held on January 26, 2022. With well over 70 government sector and private sector attendees, the summit has created a momentum of interest in investing in the 52nd St. Corridor.
- Finally, TEC-CDC was able to secure a second round of funding through our partnership with Wells Fargo bank to provide more streetscape and storefront improvements to the corridor.

- In March, GU submitted a grant proposal to help fund exterior lighting and security cameras for businesses in Germantown that would like them. - Recently received an enhancement grant that has a focus on public safety. One of the objectives in the proposal includes: Increase the number of exterior security cameras along the business corridor. Study after study shows that having a surveillance camera system results in crime reduction rates of 50 percent or more, along with the benefit of having clear evidence in the event of criminal activity. Strategically placed surveillance cameras connected to the City's SafeCam program will help to make the location safer for shoppers and the community, discourage nuisance activity that may lead to increased crime, and prevent crime from occurring in public spaces.

Another meeting will take place
