Good evening,

I am sure you are all aware of the current state of the economy. We are already on the verge of another depression period. Cost for basic necessities are sky rocketing and the minimum wage & average employment rates are not increasing.

With the installation of the new meters I, and I'm sure others, have experienced an increase in the water bill. This is already a hardship. Another increase would be impossible to maintain in addition to the rising cost of living.

Please reconsider the proposed increase and consider the many families that depend on your mission to serve us.

Best,
Pebble
