CITY OF PHILADELPHIA

ZERO TRAFFIC DEATHS BY 2030

CRASHES ON SPRINGFIELD AVE FROM 51ST STREET TO 57TH STREET

CONTRIBUTING FACTORS TO CRASHES

- People in vehicles driving aggressively on this local neighborhood street.
- Missing or faded crosswalks that make it harder for people walking to safely cross at intersections.
- People driving run red lights, putting people driving, walking, and biking through the intersection at risk.

CRASHES IN PROJECT AREA

There were **64 crashes** on Springfield Avenue between 2017 and 2021. **43** crashes were angled at intersections, **6** were rear-ends, **3** were sideswipes, and **3** involved pedestrians.

DEATHS AND INJURIES

67 people were injured, with **3** seriously injured in crashes on Springfield Avenue between 2017 and 2021.
