African Cultural Alliance of North America (ACANA)

Neighborhood Revitalization

5530 Chester Ave., Philadelphia, PA 19143

Contract #: 2020116

Council District 3, Census Tracts 65,66, 70, 71.1, 71.2, 73, and 74

Target Area: 5400-5700 blocks of Chester Avenue

The Commerce Department supports the activities of Business Improvement Districts (BIDs) and other organizations that provide community services such as street and sidewalk litter removal, public safety services and other public space maintenance activities so as to improve the quality of life, employment opportunities and entrepreneurial opportunities for very low-, low- and moderate-income individuals and neighborhoods in Philadelphia. The principal goal of this program is to increase the delivery of additional public services to multiple low and moderate-income neighborhoods in order to enable businesses to provide needed goods, services and employment opportunities to residents.

At the foundation of any vital commercial corridor are clean streets, sidewalks and storefronts. Litter deters investment and creates the perception that an area is neglected and unsafe. When quality-of-life issues are not addressed, other economic development initiatives do little to attract businesses and consumers to a given commercial corridor.

Accomplishments:

- Number of microenterprises <5 employees: 20
- Business ownership by race/ethnicity: Asian 194, Black 298, Latino 64, White 44

- Met with the police community liaison officer to discuss business owners registering cameras. They learned the process is variably simple and could be a real asset in addressing theft, crime etc.

ACHIEVEability (ACHA)

Neighborhood Revitalization

35 N. 60th Street, Philadelphia, PA 19139

Contract #: 2020117-02

Council District 3, Census Tracts 83.01, 83.02, 84, 95, 96

The primary commercial area is 60th & Market Streets, on 60th from Arch St. to Spruce St. and on Market Street from 59th St. to 61st St

The Commerce Department supports the activities of Business Improvement Districts (BIDs) and other organizations that provide community services such as street and sidewalk litter removal, public safety services and other public space maintenance activities so as to improve the quality of life, employment opportunities and entrepreneurial opportunities for very low-, low- and moderate-income individuals and neighborhoods in Philadelphia. The principal goal of this program is to increase the delivery of additional public services to multiple low and moderate-income neighborhoods in order to enable businesses to provide needed goods, services and employment opportunities to residents.

At the foundation of any vital commercial corridor are clean streets, sidewalks and storefronts. Litter deters investment and creates the perception that an area is neglected and unsafe. When quality-of-life issues are not addressed, other economic development initiatives do little to attract businesses and consumers to a given commercial corridor.

ACHIEVEability will provide technical assistance and business support services to business owners, connect them to service providers with specific expertise, and support microenterprises who could benefit from City and other grant and financial assistance programs, ACHIEVEability will undertake the following activities:
