People receiving at least one dose in Philadelphia Philadelphians with at least one shot 1,692,024 People receiving at least one dose in Philadelphians with at least one shot 1,297,315 People receiving at least one dose in Philadelphians with at least one shot 1,297,315 People receiving at least one dose in Philadelphians with at least one shot 1,297,315 People receiving at least one dose in Philadelphians with at least one shot 1,297,315 People receiving at least one dose in Philadelphians with at least one shot 1,297,315 People receiving at least one dose in Philadelphia 1,297,315 People receiving at least one dose in Philadelphia 1,297,315 People receiving at least one dose in Philadelphians with at least one shot 1,297,315 People receiving at least one dose in Philadelphia 1,297,315 People receiving at least one dose in Philadelphians with at least one shot 1,297,315 People receiving at least one dose in Philadelphians with at least one shot 1,297,315 People receiving at least one dose in Philadelphians with at least one shot 1,297,315 People receiving at least one dose in Philadelphians with at least one shot 1,297,315 People receiving at least one dose in Philadelphians with at least one shot 1,297,315 People receiving at least one dose in Philadelphians with at least one shot 1,297,315 People receiving at least one dose in Philadelphians with at least one shot 1,297,315 People receiving at least one dose in Philadelphians with at least one shot 1,297,315 People receiving at least one dose in Philadelphians with at least one dose in Philadelphians with at least one shot 1,297,315 People receiving at least one dose in Philadelphians with at lea

Data displayed within this dashboard includes all doses reported to the Philadelphia Department of Public Health from providers, PADOH, and other states (Federal doses no longer included). Total number of individuals receiving doses are displayed based on the category selected. Data on MRNA Bivalent booster doses administered only include Philadelphia residents. An additional number of non-residents have received MRNA Bivalent booster doses. Partially, Fully, and Boosted calculations are no longer generated in this dashboard. Numbers in the below graphics do not include unknowns within their category. *Doses 1 through 5 displayed below are monovalent vaccine.
