EZ PERMIT STANDARDS RETAINING WALLS

For New Retaining Walls. Revised 10/2023

EZ Permit Standards: Retaining Wall

Obtain permits for building a retaining wall without submitting plans by meeting the Conditions and Design Limitations below. Any deviations from this permit standard will result in permit revocation.

No building permit is required for retaining walls that do not exceed two (2) feet in height measured from the lowest level of grade to the top of the wall where no surcharge is supported, and that do not impound Class I, II, or III-A liquids.

This standard may not be used to legalize work performed without permits. The legalization of work shall require the submission of plans.

Exception: This EZ Permit Standard may be utilized to legalize engineered pre-cast masonry walls that comply with this standard and are constructed in accordance with the manufacturer's specifications.

Construction Requirements

Conditions

EZ Permit Standard does not apply to sloped backfill conditions or to the support of surcharge loads. Such conditions of sloped backfill and/or surcharge load support will require engineered details and drawings.

• All retaining walls located along a street frontage in the following areas must be approved by the Philadelphia City Planning Commission:

[Title 14-504(7)(b)]

[Title 14-504(8)(a)]

[Title 14-504(9)(a)]

[Title 14-504(10)(b)]

[Title 14-502(2)(b)(.19)]

[Title 14-502(2)(b)(.11)]

12 in

– 24 In

- Central Roxborough Conservation Overlay
- Ridge Park Roxborough Conservation Overlay
- Powelton Village Conservation Overlay
- o Wissahickon Conservation Overlay

Strawberry Mansion Village Conservation Overlay [Title 14-504(11)(b)]

- All retaining walls abutting the following areas must be approved by the Philadelphia Art Commission:
 - Parkway Buffer Area
 - Independence Hall Area

Masonry Retaining Walls

0

Materials

Retaining Walls shall be constructed of either:

o Brick

- o Stone
- o CMU (Hollow units to be filled)
 - CMU wall to be parged on soil side with minimum 1/16" thick coating.

Height Limitations

- 8" Solid Masonry: Max. 36" High
- 12" Solid Masonry: Max. 48" High

Concrete Foundation

- Minimum size: 18" x 36"
- Minimum depth: 30" below grade

Weep-holes

- Minimum Diameter: 2¹/₂"
- Maximum Spacing: 4'-0" O.C.
- Stone or crushed gravel fill to be located behind weepholes; Min. Fill Width = 12"

Note: W=8"; 24" < H ≤ 36" W=12"; 36" < H ≤ 48" Weepholes-Min. 2^j" Ø, 4'-0" O.C. GRADE Min. 30" Below Grade Gravel/Crushed Stone w/ Filter Membrane Material Concrete Foundation

Min. 18 in x 36 in
