

FLOOD PROTECTION FORM - VARIANCES (FP-VAR)

SUBMIT WITH ZONING/USE REGISTRATION PERMIT or
BUILDING PERMIT APPLICATION
Published October 2021 (Revised November 2023)

FLOOD PROTECTION FORM – VARIANCES (FP-VAR)

This form is for zoning/use registration or building permit applications where the design professional is seeking a variance(s) to City of Philadelphia codes/regulations associated with a development site located in the Special Flood Hazard Area (SFHA). Once an application is reviewed and a refusal is determined to be required as it relates to floodplain regulations, the appellant will be required to submit this FP-VAR form with their appeal and notice of refusal to the Zoning Board of Adjustment and the Board of Building Standards at time of Appeal filing.

A variance is an authorization for the construction or maintenance of a structure or other land uses that would otherwise be prohibited or regulated by Philadelphia’s Zoning Code or Building Codes to reduce the City’s overall risk to flooding. Relevant to this guidance, 44 CFR §59.1 defines “variance” as “a grant of relief by a community from the terms of a floodplain management regulation.” Variances are meant to address unique, site-specific and individual circumstances where the strict application of the ordinance may result in an extreme hardship to a property owner.

While the variance is intended to provide relief, it still enables the City to:

- Preserve the purpose and intent of the zoning and building code;
- Minimize legal challenges to the zoning/building code or floodplain management regulations and avoid an unconstitutional “taking” of private property without compensation; and
- Protect the safety, health, and welfare of the public and emergency responders.

The authority to grant a variance is delegated to the City through State statutes. This authority empowers the City to establish a board(s) (Zoning Board and Board of Building Standards) to adjudicate variance applications and sets out the standards and elements necessary for granting variances.

In some cases, a variance granted for floodplain management purposes can result in a project that does not meet the minimum standards of the NFIP. Because a variance can lead to an increased risk to life and property, variances from flood elevation requirements or other floodplain management requirements should be granted only rarely. The City shall consider four important issues before granting a variance: (1) the City’s liability, (2) the cumulative impacts on the floodplain of granting multiple similar variances, (3) the variance decision will last for the life of the structure, and (4) whether granting a variance will jeopardize the City’s participation in the NFIP.

[FEMA: Variances and the National Flood Insurance Program \(FEMA P993/July 2014\)](#) – guidance only (not Philadelphia code or regulations)

NOTE: ALL LINES ON THIS FORM MUST BE COMPLETED, AND WHEN “NOT APPLICABLE” SELECT “N/A”

A. PROJECT INFORMATION			
1. Address of proposed work			
2. Owner of property			
3. Owner address		4. Owner Phone #	
5. Agent of Owner		6. Company	
7. Agent Address		8. Agent Phone #	
B. FLOOD HAZARD INFORMATION			
Flood Risk Zone – select all that apply to your site/parcel			
<input type="checkbox"/> A Zone	<input type="checkbox"/> AE/Floodway		
<input type="checkbox"/> AE Zone	<input type="checkbox"/> FEMA Mapped 0.2% /X/unshaded		
<input type="checkbox"/> Seaward of LiMWA line	<input type="checkbox"/> Mean high tide zone		
1. Map/Panel #		2. FIRM Panel - Effective/Revised Date	
3. Flood Insurance Study (FIS) used to determine BFE		<input type="checkbox"/> Yes	<input type="checkbox"/> No
C. REFUSAL INFORMATION			
1. Refusal documents issued by L&I attached?		<input type="checkbox"/> Yes	<input type="checkbox"/> No

D. GROUNDS FOR APPEAL

1. For existing structure appeal of City's Office of Property Assessment value	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
2. For all other request describe below:			

E. VARIANCES (Zoning Board of Adjustment Only - Philadelphia Zoning Code)

Where all or part of the property is located in an area subject to flooding as provided in § 14-704(4) (Flood Protection) the Zoning Board shall only approve a variance if it determines that the application meets the following criteria in addition to those in § 14-303(8)(e). Applicant must provide technical justification to the board where needed in Section G.

1. Any requested variance for property located within the Floodway will not result in any increase in flood levels during the Regulatory Flood.	<input type="checkbox"/> Yes, provide FP-NR	<input type="checkbox"/> No	<input type="checkbox"/> N/A
2. Any requested variance for property located within the Special Flood Hazard Area will not significantly increase the danger of flooding; and will not increase the likelihood of the loss of property.	<input type="checkbox"/> Yes, provide analysis	<input type="checkbox"/> No	<input type="checkbox"/> N/A
3. Any variance in either the Floodway or Special Flood Hazard Area involves the least modification of floodplain controls necessary to allow the proposed development to proceed.	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
4. For any property located in the Floodway, no variance shall be granted that would allow construction or substantial improvement of any structure: <ul style="list-style-type: none"> a. used for the production or storage of: acetone; ammonia; benzene; calcium carbide; carbon disulfide; celluloid; chlorine; hydrochloric acid; hydrocyanic acid; magnesium; nitric acid and oxides of nitrogen; petroleum products (gasoline, fuel oil, and the like); phosphorus; potassium; sodium; sulphur and sulphur products; pesticides (including insecticides, fungicides, and rodenticides) b. used for any activity requiring the maintenance of a supply of any of the materials listed in § 14-303(8)(f)(.4)(.a) in excess of 550 gallons or an equivalent volume; or c. used for any purpose involving the production, storage, or use of any amount of radioactive substance. 	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
5. Within the Special Flood Hazard Area, no variance shall be granted that would allow construction or substantial improvement of any of the following unless it is elevated or floodproofed to remain completely dry to one and one-half ft. above the Regulatory Flood Elevation: <ul style="list-style-type: none"> a. any structure used for the production or storage of: acetone; ammonia; benzene; calcium carbide; carbon disulfide; celluloid; chlorine; hydrochloric acid; hydrocyanic acid; magnesium; nitric acid and oxides of nitrogen; petroleum products (gasoline, fuel oil, and the like); phosphorus; potassium; sodium; sulphur and sulphur products; pesticides (including insecticides, fungicides, and rodenticides) b. any structure used for any activity requiring the maintenance of a supply of any of the materials listed in § 14-303(8)(f)(.5)(.a) in excess of 550 gallons or an equivalent volume; or c. any structure used for any purpose involving the production, storage, or use of any amount of radioactive substance. 	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A

F. VARIANCES (Philadelphia Building Code)

Administrative Code

1. A-802.2.1.2 Flood plain: In such case where the Board of Building Standards shall recommend a variance to construct a structure below the Regulatory Flood Elevation, the owner shall be notified in writing that the variance will result in increased premium rates for flood insurance and an increased risk to property and life. The Board of Building Standards shall maintain a record of all variance actions within the flood plain and justification therefor, and shall report such variances issued in an annual report to the Administrator of the Federal Insurance Administration.	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
2. A-802.2.1.3 Determination of substantial improvement in areas prone to flooding: When the code official provides a finding of substantial improvement to a permit applicant regarding a building or structure regulated by the technical codes as required in Section A-302.1.2, and the applicant disagrees with such finding, the applicant may file an appeal with the Board of Building Standards. The Board shall determine whether the value of the proposed work constitutes a substantial improvement.	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
IBC 2018: Appendix G (must provide technical justification in Section G)			
3. Technical justifications to further the purpose of IBC 2018: Appendix G 105.6 - Considerations and Section 1612 – Flood loads	Must provide justifications for 3a-j.		
a. The danger that materials and debris may be swept onto other lands resulting in further injury and damage	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
b. The danger to life and property due to flooding or erosion damage	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
c. The susceptibility of the proposed development, including contents, to flood damage and the effect of such damage on current and future owners	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
d. The importance of services provided by the proposed development to the Community	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
e. The availability of alternate locations for the proposed development that are not subject to flooding and erosion	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
f. The compatibility of the proposed development with existing and anticipated development	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
g. The relationship of the proposed development to the comprehensive plan and flood plain management program for that area	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
h. The safety and access to the property in times of flood for ordinary and emergency vehicles	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
i. The expected heights, velocity, duration, rate of rise and debris and sediment transport of the floodwaters and the effect of wave action, expected at the site	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
j. The costs of providing governmental services during and after flood Conditions including maintenance and repair of public utilities and facilities Such as sewer, gas, electrical and water systems, streets and bridges.	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
4. Functionally dependent facilities (IBC 2018: G105.4)	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
a. Section 1612.1 – Flood loads criteria met	<input type="checkbox"/> Yes, provide Structural Design Criteria Form		<input type="checkbox"/> No <input type="checkbox"/> N/A
b. Consideration given to methods and materials that minimize flood damages and do not add to public safety threats	<input type="checkbox"/> Yes, provide justification		<input type="checkbox"/> No <input type="checkbox"/> N/A

G. SIGNATURE

I hereby affirm that all statements above are correct and complete to the best of my knowledge and that the design plans/additional documents, that were submitted, are consistent with these statements. Furthermore, I affirm that I acknowledge all applicable variances requirements found in the building and zoning code/regulations (noted above) are met in this variance request.

Applicant Signature		Print Name		Date

H. ADDITIONAL INFORMATION

If you need to provide additional information or clarification to any items on this form, please attach below:

I. BOARDS CONDITIONS FOR VARIANCE ISSUANCE (Board of Building Standards – use only)

At the Board of Building Standards, the board members will use this section to assure requirements of the code are met.

1. Condition's for issuance (INB 2018: G105.7)	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
a. A technical justification showing of good and sufficient cause that unique characteristics of the size, configuration or topography of the site renders the elevation standards inappropriate	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
b. A determination that failure to grant the variance would result in Exceptional hardship by rendering the lot undevelopable	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
c. A determination that the granting of a variance will not result in increased Flood heights, additional threats to public safety, extortionary expense, Nor create nuisances, cause fraud on or victimization of the public Or conflict with existing local laws or ordinances	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
d. A determination that the variance is the minimum necessary, considering The flood hazard, to afford relief	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
e. Notification to the applicant to the applicant in writing over the signature Of the building official that the issuance of the variance to construct a Structure below the base flood level will result in increases premium Rates for flood insurance up to amounts as high as \$25 for \$100 of insurance coverage, and that such construction below the base flood elevation increases risks to life and property	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A

INSTRUCTIONS: FLOOD PROTECTION FORM – VARIANCES (FP-VAR)

SECTION A

This section is for general project information.

SECTION B

This section identifies the development site's location in relation to Flood Insurance Rate Map information. Enter the Flood Risk Zone (A, AE, Floodways, or X) for the proposed development, including the Map Panel number and Effective/Revised Date of panel. Additional, areas such as LIMWA and mean high tide must be identified. In all cases they should be shown clearly on a site plan.

SECTION C

This section identifies the L&I refusal document, which must be attached to this form.

SECTION D

This section identifies the applicants ground of appeal.

SECTION E

This section identifies the variances within the Philadelphia Zoning Code.

SECTION F

This section identifies the variances within the Philadelphia Buildings and Administrative Codes. The applicant must provide justification in writing where required.

SECTION G

A signature is required to affirm all the statement are correct and complete to the best of the applicants' knowledge and that the design plans, that were submitted, are consistent with these statements.

SECTION H

This section is for additional information or clarification of items on this form. If the applicant has attachments or exhibits, they should be listed here with name, page number, and date.

SECTION I

This section is for the Board of Building Standards members to complete to document that the variance request meeting the criteria found in the building code. Board may also have to send a letter to the applicant about flood insurance.
