Dr. Jonathan E. Farnham, Ph.D.  
Executive Director  
City of Philadelphia Historical Commission  
1515 Arch St, 13<sup>th</sup> Floor, Philadelphia, PA 19102

RE: Proposed Mixed-Use Development at 2112 Walnut Street

Dear Dr. Farnham:

This revised proposal, for review at the Commission's upcoming meeting on Friday December 8, 2023, includes revisions to our original submission dated 08/08/2023, that was reviewed by the Architectural Committee and subsequently withdrawn from the Commission's schedule; to address some comments made, then subsequently a revised submission, submitted 11/2/2023, which was on the agenda of the 11/10/2023 Commission meeting where a continuance was granted. This letter describes the current scheme and revisions made in consideration of the staff review, comments heard at the Architectural Committee, and meetings since with neighbors, coordinated through the CCRA.

This proposal remains for final Historical Commission review for 2112 Walnut Street and its development into 10 condominium units. The site, located in the Rittenhouse-Fitler Historic District of Philadelphia, with frontage on Walnut Street, is zoned RMX-3. The parcel contains one building, a 4-story brownstone townhouse that is not individually designated but is contributing to the district, according to the Philadelphia Register of Historic Places.

The submission is revised, to the degree feasible, to reflect the staff review and concerns expressed by the Architectural Committee. Generally, the overall height has been reduced by two stories (nearly forty feet at the north façade) and most of the existing structure shall be maintained. The originally proposed 37,516 GSF as-of-right development has been reduced to a calculated FAR of 30,598 GSF. The proposal is now 11 stories vs. the original 13, and still contains ten condominium units ranging from 1400 – 4,000 square feet with partial-floor, full-floor, and bi-level units. The top, eleventh floor, is partially a rooftop mechanical area and a rooftop terrace. Access to the latter is through an enclosure that is less than 400 SF. The original overall height, to the highest point, is reduced by 24'-0", with an approximate 40'-0" reduction of the north façade facing Walnut Street.

The project proposal still consists of new construction on the open lot behind and partially above the existing structure, but with a fire separation between the two to allow the existing combustible construction to remain as part of the proposed structure. Thus, we now propose keeping a large percentage (over 90%) of the existing exterior walls, floors, and roof as-is in the existing 2112 brownstone. Diagrams are included which demonstrate this.

- Alterations of the existing floor structures will be to provide for a few structural columns to be threaded down to the ground.
- Areas of complete roof removal are limited to the rear mansard and a section behind the front mansard. The former, barely visible from public view is to facilitate creation of a full-floor dwelling unit and the latter is to open a proposed terrace at the 4<sup>th</sup> floor to the sky and provide an outdoor space that is not visible from the street and is below a terrace at the adjacent building. To the north and south of this open area we propose removing only the roof sheathing and preserving the existing joists as trellis elements above the terrace. Existing

bearing walls, chimneys and fireplaces will remain as features of this outdoor space. The remaining portion of the existing roof structure will remain part of the dwelling unit (the existing combustible roofing membrane will be removed entirely as it cannot remain encapsulated). The area remaining behind the front mansard will receive a new membrane. Behind the existing restored mansard roof and dormers will be an open roof deck area.

- The existing front façade elements, including masonry, dormers, bay, windows, doors, and slate roof facing Walnut Street will be preserved and restored. We propose removing a non-historic one-story addition at the back of the building, the south facing bay and the exterior fire escapes. Removal of the two-story, framed bay at the second and third floors provides openings for passage between the existing and proposed structure without the need for removal of any masonry from the existing south wall. The bay, barely visible from the public way, is already compromised by the addition hollow metal egress doors. Masonry removal is limited and at the existing sub-cellar level that is currently not visible due to the existing one-story addition.

Interior partition removal is reduced to only non-historic partitions that were added over the years to construct the elevator hoistway, a toilet room core at each floor, and to subdivide the large rooms into smaller office spaces. The original load-bearing walls, one running in the east-west direction and the other in the north-south direction will remain except where previously modified, as they support the existing floor structures (also now to remain). Limited sections of each will be removed at the 4<sup>th</sup> floor where they are no longer needed to support the roof framing.

As previously indicated, we propose removal of the existing interior staircase above the 3<sup>rd</sup> floor ceiling to the degree it is structurally feasible. In addition to the ornate staircase, other interior elements intended for preservation to the degree possible are the entry vestibule, hall and the three rooms it connects on the first floor.

The proposed new construction features a façade generally matching the materials and aligning of floor levels with the adjacent structure at 2110 Walnut Street. The new construction is set further back than the adjacent 2110 project with outdoor terraces at each floor to further minimize the massing. At the ninth floor the building is further setback to recede the façade from the street. See the attached graphics package for additional information about the building mass, articulation, and materials.

Eight parking spaces (reduced from ten) are proposed within the building, at the cellar level via a vehicle lift. Access will be from Chancellor Street across an existing easement on 2114 Walnut, in the same fashion the existing surface parking is currently being accessed. Other elements at the ground floor include a commercial space facing Walnut Street.

After reviewing this information booklet, please do not hesitate to contact us with any questions or should you require additional information, which we will make every attempt to promptly provide. We look forward to presenting our proposal to the Historical Commission at their December 8th meeting.

Sincerely,

Eric Leighton, AIA

Cc: Tim Shaaban, Nicholas Connolly, file

## Construction Permit Application

Use this application to obtain permits for a residential or commercial construction proposal and/or excavation projects.  
Mechanical / Fuel Gas, Electrical, Plumbing, and Fire Suppression trade details are found on page 2.

### Property Information

Identify the location of work for the permit(s).

1

Parcel Address: 2112 Walnut Street

Specific Location: 2112 Walnut Street

Check box if this application is part of a project and provide the project number: PR-20 - \_\_\_\_\_

### Applicant Information

Identify how you are associated with the property.

2

I am the:  Property Owner  Tenant  Equitable Owner  Licensed Professional or Tradesperson

Name: Eric Leighton Company: cbp Architects

Address: 234 Market Street, 4th floor

Email: leighton@cbparchitects.com Phone No.: 215-928-0202

Licensed professionals include design professionals, attorneys, and expeditors. A tradesperson must have an active Philadelphia license for their trade or hold a PA Home Improvement Contractor Registration.

### Property owner Information

Identify the deeded property owner.

3

The property owner is a/an:  Individual  Company\*

#### Owner (1)

Name: Bruce M Ginsberg  Check box if new owner is being listed

Address: #518, 190 Presidential Blvd., Bala Cynwyd, PA 19004

#### Owner (2)

Name: Lisa Ginsberg

Address: #518, 190 Presidential Blvd., Bala Cynwyd, PA 19004

If there was a recent change of ownership, documentation such as a deed or settlement sheet is required.

\*If the property owner is a 'company', identify the contact information for any natural person with more than 49% equity interest in the property. If no individual has such an interest, provide contact information of at least two (2) natural persons with the largest equity interest in the property.

### Design Professional in Responsible Charge

Identify the PA-licensed design professional who is legally responsible.

4

Name: Eric Leighton Firm: cbp Architects

PA License No.: RA016375 Phila. Commercial Activity License No.: 524605

Email: leighton@cbparchitects.com Phone No.: 215-928-0202

### Project Scope

Use this section to provide project details; all fields are mandatory.

5

(a) Choose the proposed occupancy of the entire building. If not one-or-two-family, provide a description of group(s) per code.

(a) **Occupancy**  Single-Family  Two-Family  Other, please describe: Multi Family

(b) Identify if the project will be new construction, an addition, interior/exterior alterations, excavation or shell.

(b) **Scope of Work**  New Construction  Excavation  Addition / Alteration  Shell (No Fit Out) - Option for Commercial Permits Only

(c) List the site area that will be disturbed by construction, if any. Enter 'zero' if no disturbance.

(c) **Earth Disturbance** Area of Earth Disturbance: 4,100 (Sq. Ft.)

(d) Note the new floor area created, including basements, cellars, and occupiable roofs. Where existing areas will be altered, list those areas separately.

(d) **Building Floor Areas** New Floor Area: 24,627 (Sq. Ft.) Existing Altered Area: 7,316 (Sq. Ft.)

(e) State the number of new or affected stories.

(e) **Number of Stories** 11

(f) Provide a detailed description of the work proposed (use separate sheet if needed).

(f) **Description of Work** Project consists of gut renovation of existing structure at 2112 Walnut. New construction will consist of cellar with automated vehicle storage and eleven story building behind and above the existing structure.

First floor will have some retail with 10 dwelling units and amenity spaces on the floors above.

(g) Select all conditions that apply to this project (if any).

#### (g) Project Conditions

New High Rise  Green Roof Included  Initial Fit-out of Newly Constructed Space  
 Modular Construction  Façade Work  Project Impacts Streets/Right-of-Way\*  
 Project Impacts Adjacent Property\*\*

\* Provide the associated **Streets Review** number for this project, if applicable: SR-20

\*\* This project includes work described below:  Yes  No

- Excavation work more than 5 feet below adjacent grade and within 10 feet of an adjacent building or structure.
- Excavation or construction work where historic structure is within 90 feet on the same or adjacent parcel.
- Structural alterations of a historic structure (excluding one-or-two family dwelling).
- Modifications to a party wall, including joist replacement, and additions.
- Severing of structural roof or wall covering spanning properties.

\* Provide the associated Streets Review number if "Project Impacts Streets / Right-of-Way" is selected.

\*\* If 'Yes' is selected, an Owners' Acknowledgement of Receipt form must be provided for each affected property.

Department of  
**Licenses and Inspections**  
CITY OF PHILADELPHIA

\*\*\*DO NOT MAIL THIS APPLICATION\*\*\*

Job Number: (for office use only)

**Project Details, Other Permits & Contractor Information**

Use this section to provide project details, pre-requisite approvals and applicable contractor information.

(a) Choose all disciplines of work for which permits are being requested.

- If 'Building' is not requested, provide the number of the associated permit that was previously issued (where applicable).
- If a Zoning Permit was issued for this work, provide the related Zoning Permit number.

(b) Identify the general contractor and estimated cost of building construction.

(c) Identify the licensed excavation contractor and estimated cost of excavation work.

(d) Identify the mechanical contractor, estimated cost of mechanical work, equipment type, and quantity as:

- Number of registers/diffusers (separate new / relocated)
- Number of appliances
- Number of Type I / Type II kitchen hoods

Where fuel gas work is included, note the estimated cost of fuel gas work.

(e) Identify the licensed electrical contractor, estimated cost of electrical work, and a registered third-party electrical inspection agency.

(f) Identify the registered master plumber, estimated cost of plumbing work, number of fixtures, and check location of work as:

- Interior
- Exterior Drainage and/or Water Distribution

(g) Identify the licensed fire suppression contractor, estimated cost of fire suppression work, and number of devices:

- Sprinkler Heads (separate new / relocated quantities)
- Standpipes
- Fire Pumps
- Stand-alone Backflow Prevention Devices
- Kitchen Extinguishing Systems
- Hydrants

**\*ROUGH-IN NOTICE:** If you are seeking a rough-in permit, an application for plan review must be submitted already.

(h) Provide the total improvement cost for residential (including multi-family alterations and additions). Check the box if your project is excluded from real estate tax exemption and exempt from Development Impact Tax.

6

(a) Check all that apply:

- Building     Excavation     Mechanical & Fuel Gas     Electrical     Plumbing     Fire Suppression

Provide the associated Construction Permit number, if applicable: **RP or CP – 20** \_\_\_\_\_ - \_\_\_\_\_

Provide the associated Zoning Permit number for this construction, if applicable: **ZP – 20** \_\_\_\_\_ - \_\_\_\_\_

**Note:** Trades listed below (d, e, f, and g) are mandatory for all residential new construction jobs.

(b) General Building Construction Contractor Information

Name: TBD Cost of Building Work: \$ 12 Million

License Number: \_\_\_\_\_ Phone: \_\_\_\_\_

(c) Excavation Work & Contractor Information

Name: \_\_\_\_\_ Cost of Excavation Work: \$ \_\_\_\_\_

License Number: \_\_\_\_\_ Phone: \_\_\_\_\_

(d) Mechanical / Fuel Gas Work & Contractor Information

Name: \_\_\_\_\_ Cost of Mechanical Work: \$ \_\_\_\_\_

License Number: \_\_\_\_\_ Cost of Fuel Gas Work: \$ \_\_\_\_\_

Equipment Types:  Registers / Diffusers     Appliances     Hoods    Phone: \_\_\_\_\_

Equipment Details & Quantities: \_\_\_\_\_

(e) Electrical Work & Contractor Information     New Installation     Alteration     \*Rough-In

Name: \_\_\_\_\_ Cost of Electrical Work: \$ \_\_\_\_\_

License Number: \_\_\_\_\_ Phone: \_\_\_\_\_

Third Party Inspection Agency Name: \_\_\_\_\_

(f) Plumbing Work & Contractor Information     New Installation     Alteration     \*Rough-In

Name: \_\_\_\_\_ Cost of Plumbing Work: \$ \_\_\_\_\_

License Number: \_\_\_\_\_ Phone: \_\_\_\_\_

Number of Fixtures: \_\_\_\_\_

Check one:     Interior Work     Exterior Building Drainage     Exterior Water Distribution:  
line size: \_\_\_\_\_ (in.)

(g) Fire Suppression Work & Contractor Information     New Installation     Alteration     \*Rough-In

Name: \_\_\_\_\_ Cost of Fire Supp. Work: \$ \_\_\_\_\_

License Number: \_\_\_\_\_ Phone: \_\_\_\_\_

Sprinkler Heads: \_\_\_\_\_ Standpipes: \_\_\_\_\_ Fire Pumps: \_\_\_\_\_

Commercial Kitchen Systems: \_\_\_\_\_ Backflow Devices: \_\_\_\_\_ Hydrants: \_\_\_\_\_

(h) Total Improvement Cost: \$ \_\_\_\_\_ (The total improvement cost must also include the cost of all electrical, plumbing, mechanical, fire suppression systems work, and interior finishes)

Check box if your project is excluded from real estate tax exemption and exempt from Development Impact Tax (Review OPA's website for tax abatement information at: <https://www.phila.gov/services/property-lots-housing/property-taxes/get-real-estate-tax-relief/get-a-property-tax-abatement/>)
