I am writing to support the three story option for 504 S Juniper Street. There is no architectural precedent on Juniper Street or in Wash West on these small streets for a four story option. Approval of such an option encourages people to propose the demolition of the 1830 rowhouses so typical of this district. The demolition of this building was made more palatable because the building was essentially going to be reconstructed. I think that the change in design completely alters the terms of the demolition itself.

Thank you
Randal Baron
