Greetings,

I am writing to the Committee and Commission to support the staff recommendation of denial for the work at this early property.

Please note the brick belt course that marks this as a particularly early house. It is very important that the dormer and windows which were illegally demolished get restored correctly with a requirement of correct shop drawings. The dormer which has been enlarged needs to be rebuilt to match the size and details of the houses to the south. I agree that the addition is oversized, but the front details are equally important to the review.

Thank you

Randal Baron
