

INSTRUCTIONS: The City is getting ready to improve Westminster Ave. The maps below show what residents and community members living on or near Westminster Ave want to see, combined with input from City staff. We asked about their traffic safety concerns, and what types of traffic calming fixes they want to see.

Westminster Avenue (40th St - 52nd St) will be repaved. All the lighting and curb ramps will be updated.

LEGEND

Speed cushion

Concrete curb bump-out

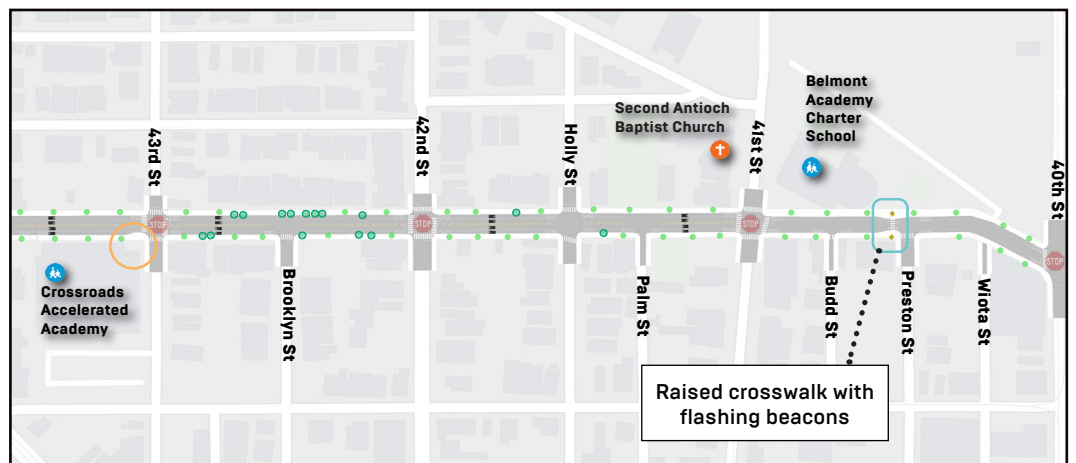

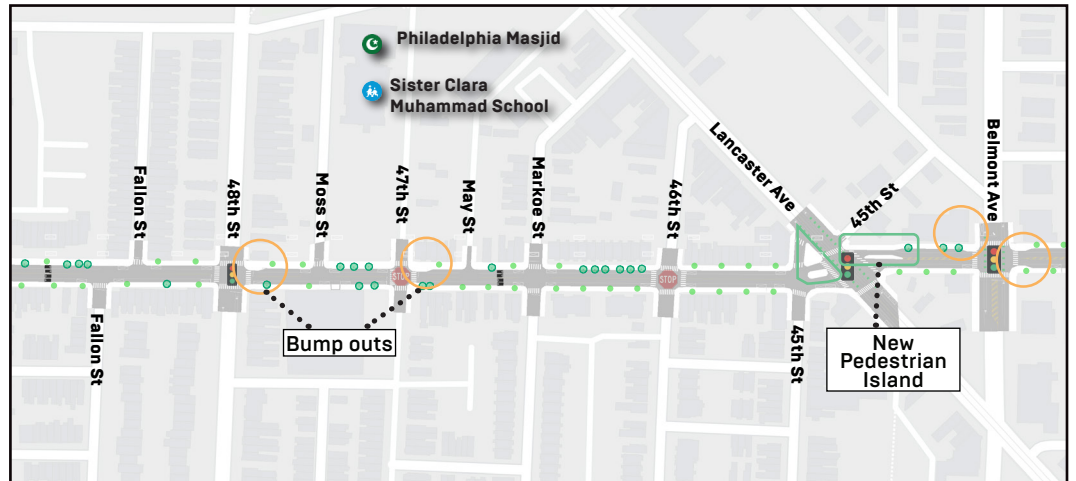

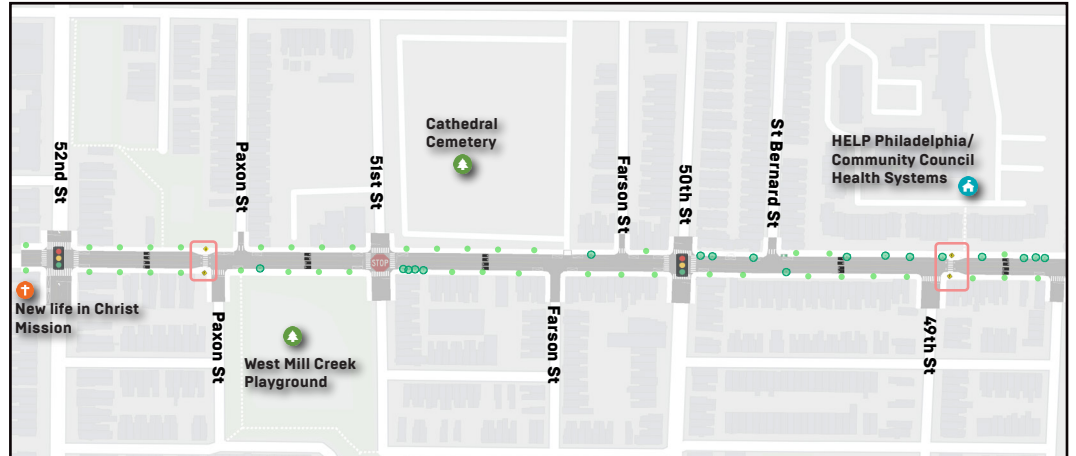

Raised crosswalk

Midblock crosswalk with flashing beacons

Pedestrian Island

Existing Tree

New Tree

Neighbors interact with OTIS Staff at an event to discuss traffic calming on Westminster Avenue at 47th Street Traffic Safety Resource Fair, Fall 2023.

Previous Engagement:

OTIS hosted two community meetings in Summer 2023 and participated in a neighborhood street fair in Fall 2023 to engage with the community for this project. Neighbors expressed interest in safety improvements such as raised crosswalks, speed cushions, and new crossings, as indicated on the map on the first page.

Timeline:

- Collaborative Planning & Design with community members: Spring 2023 - Summer 2024
- Preliminary Engineering: Summer 2024 - 2025
- Final Design & Engineering: Fall 2025 - 2026
- Construction: Anticipated 2027-2028

About Great Streets PHL

Great Streets PHL seeks support for needed transportation safety improvements and roadway infrastructure upgrades along seven important corridors in Philadelphia.

IMPROVE SAFETY: This street is one of several on the Vision Zero High Injury Network (the streets with a high concentration of traffic crashes that resulted in serious injuries or where lives were lost). Improvements to the street, design will reduce traffic crashes, deaths, and injuries.

REPAIR & REFRESH STREETS: Bring the street into to a “state of good repair” - new paving and best practice safety improvements will be made.

COLLABORATE: Collaborate with community members and residents to get input on the type of improvements that are wanted and needed, and where those improvements should go.

WORKFORCE DEVELOPMENT: Create connections to job training and resources that will enable local workers to benefit from job opportunities associated with project construction.
