

EXTENDED DAY, EXTENDED YEAR

Before and after-care to support parents, high-quality enrichment programs for students.

Our Goal

Providing safe, fun, and engaging learning spaces for young people before and afterschool is critical for the well-being of students, parents and caregivers, many of whom have work and other obligations that extend beyond the traditional school day.

At 25 pilot schools across the city, families now have the option to sign-up for free before and after-school care, including quality enrichment programs. Schools in the pilot will offer programming during the Winter Break, Spring Break, and six weeks during Summer Break.

SERVICES OFFERED:

- **EXTENDED DAY:** Before and after-school programs, 7:30 am – 6:00 pm
- **EXTENDED YEAR:** Schools will offer programming during the Winter break, Spring break, and six weeks during Summer break.
- Programs for children, including high quality enrichment, will be provided by trusted community partners.

WHAT YOU NEED TO KNOW:

- All services are **FREE** and require registration.
- Enrollment is on a rolling basis and based on availability.
- Program expands meaningful experiences for young people and their families outside school hours.

Scan the QR code for the list of pilot schools and how to register!

Additional Information

- Slots are on a first come first served basis.
- Families can register for before school programming, after school programming, or both by picking up an enrollment packet in the main office.
 - Families do NOT need to participate in both before and after school programming.
 - Camp opportunities will be available to families during Winter and Spring Break.
 - Existing partnerships will continue!
- Additional free enrichment opportunities such as intramural sports will be added throughout the year.
- Your school will eventually have a full-time Coordinator for programs.
- Your feedback matters! We will work with the School District and City to engage stakeholders (School Leaders, families, students, providers) throughout the year to help inform Year 2 of the model.
