PHILADELPHIA WATER DEPARTMENT TAP REBUTTAL STATEMENT NO. 1

BEFORE THE PHILADELPHIA WATER, SEWER AND STORM WATER RATE BOARD

Re: Philadelphia Water DepartmentProposed Changes in Rates and Charges2025 TAP-R Adjustment Proceeding

Rebuttal Testimony

of

Raftelis Financial Consultants

on behalf of

the Philadelphia Water Department

Topics Addressed:

Average Monthly Number of TAP Participants Average TAP Discount Per Participant Monthly Consumption Per TAP Participant

Dated: May 2, 2025

TABLE OF CONTENTS

I.	INTRODUCTION AND PURPOSE OF TESTIMONY	3
II. F	REBUTTAL TESTIMONY	4
III.	CONCLUSION	.19

I.	INTRODUCTION AND PURPOSE OF TESTIMONY
1.	PLEASE STATE YOUR NAMES AND POSITIONS.
1.	Our names are Jon Davis, Henrietta Locklear, and Jennifer Tavantzis. We are employed
	by Raftelis Financial Consultants ("Raftelis" or "RFC") and provide client-specific
	advisory services for utilities, such as the Philadelphia Water Department, also referred to
	in this rebuttal testimony as "PWD" or the "Department." Together, we constitute the
	Raftelis panel testifying on behalf of the Department. ¹
2.	HAVE ANY OTHER MEMBERS OF THE WATER DEPARTMENT'S
	CONSULTING TEAM ASSISTED IN THE PREPARATION OF THIS REBUTTAL
	TESTIMONY?
2.	Yes. David Jagt and Brian Merritt of Black & Veatch Management Consulting, LLC
	(Black & Veatch) also supported the preparation of this rebuttal testimony on behalf of
	the Department. ²
3.	WHAT IS THE PURPOSE OF YOUR REBUTTAL TESTIMONY?
3.	In this rebuttal testimony, we provide the Department's response to the adjustments,
	recommendations, and criticisms expressed by Mr. Lafayette Morgan in his direct
	testimony (PA Statement 1, Schedules LKM-TAP-1 through LKM-TAP-6, and
	Appendices A and B) submitted on behalf of the Public Advocate. This testimony refers
	to Mr. Morgan and the Public Advocate (or Advocate) interchangeably.
	Raftelis specifically addresses the following areas of Mr. Morgan's testimony:
¹ Resur	nes for panelists from Raftelis Financial Consultants are provided in the 2025 TAP-R rate filing as Schedule

24 RFC-2.

^{25 &}lt;sup>2</sup> Resumes for participants from Black & Veatch Management Consulting are provided in the 2025 TAP-R rate filing as Schedule BV-5.

1		Projected number of TAP participants for the Next Rate Period
2		• Average TAP discount per participant for the Next Rate Period
3		
4		In addition, Black & Veatch prepared updated TAP-R reconciliation calculations based
5		upon the most currently available data sets (Schedule RFC-4) and provided feedback on
6		Mr. Morgan's recommendations with respect to the use of proposed water/wastewater
7		allocations and the collection factors, in context of the TAP-R calculations, as included in
8		the general rate proceeding.
9		
10	4.	PLEASE IDENTIFY THE SCHEDULES THAT ACCOMPANY THIS REBUTTAL
11		TESTIMONY.
12	4.	Schedule RFC-4, an updated version of the Rate Rider Reporting model, accompanies
13		this testimony. Schedule BV-6, an updated version of the TAP-R reconciliation
14		calculations based upon RFC-4, is also included with this testimony.
15		
16	II.	REBUTTAL TESTIMONY
17		
18	5.	PLEASE SUMMARIZE THE DEPARTMENT'S PROJECTION OF THE
19		NUMBER OF TAP PARTICIPANTS IN THE NEXT RATE PERIOD.
20	5.	RFC prepared the projections used in the 2025 TAP-R rate filing that show a very slightly
21		increasing growth trend in TAP participation over the Most Recent Rate Period, resulting
22		in projected average monthly TAP participation of 60,827 at the beginning of the Next
23		Rate Period. Refer to Schedule RFC-3 (the initial Rate Rider Reporting Model in the
24		TAP-R filing) for more details.
25		

1		Actual data for December 2024 through March 2025 show that TAP participation has not
2		only increased, but has done so at a rate higher than anticipated. This observed growth
3		contradicts the Public Advocate's ("PA" or "Advocate") assumption of a decline in
4		participation. This growth is demonstrated in the updated version of the Rate Rider
5		Reporting Model (Schedule RFC-4).
6		
7	6.	HAVE YOU EXAMINED THE DIRECT TESTIMONY AND SCHEDULES FILED
8		BY THE PUBLIC ADVOCATE?
9	6.	Yes.
10		
11	7.	PLEASE SUMMARIZE THE PUBLIC ADVOCATE'S RECOMMENDATIONS.
12	7.	The Public Advocate disagrees with the Department's projection of TAP participation for
13		the Next Rate Period and the calculation of the average discount provided to TAP
14		participants. In his direct testimony, PA witness Lafayette Morgan projects negative
15		growth in TAP participation and calculates a lower average discount provided to TAP
16		participants using twelve months of actual data.
17		
18		As explained below, changes to the number of TAP participants as well as changes to the
19		average TAP discount per participant impact the formula used to calculate the TAP rate
20		rider for the Next Rate Period.
21		
22		
23		
24		
25		

1		A. AVERAGE MONTHLY NUMBER OF TAP PARTICIPANTS
2		
3	8.	PLEASE DESCRIBE THE LEVEL OF TAP PARTICIPATION BASED ON THE
4		TAP-R FILING ASSUMPTIONS AND COMPARE WITH ACTUAL DATA
5		THROUGH MARCH 31, 2025.
6	8.	In the proposed TAP-R filing (submitted in February 18, 2025), the Department projected
7		that 59,730 customers would be participating in TAP as of March 31, 2025. Actual TAP
8		participation as of that date was 64,283. TAP participants are defined as customers who
9		receive a TAP bill in a given month.
10		
11		In the aforesaid TAP-R filing, the Department also expected TAP participation to average
12		60,827 participants per month in the Next Rate Period, as noted in Schedule RFC-3.
13		However, actual data from the first four months of the projection period reflect growth in
14		TAP participation, resulting in a revised projected average monthly TAP participation of
15		64,283 for the Next Rate Period (see Schedule RFC-4).
16		
17	9.	IS THERE POTENTIAL FOR ADDITIONAL TAP PARTICIPANTS?
18	9.	Yes. There is potential for the TAP program to enroll additional customers. Customers
19		continue to be enrolled monthly, based on approval of a submitted application.
20		Additionally, the Department continues to receive regular updates from the City's Office
21		of Integrated Data for Evidence and Action (IDEA), which supports the identification of
22		eligible customers through participation in other means-tested assistance programs. This
23		relationship is ongoing and remains an important contributor to steady increases in
24		enrollment.

25

1		With that said, the Department does not anticipate any additional programmatic changes
2		or external factors that would significantly decrease TAP participation during the Next
3		Rate Period.
4		
5	10.	FOR CLARITY, PLEASE CONFIRM WHERE THE UPDATED DATA
6		REGARDING TAP PARTICIPATION AND RELATED INFORMATION CAN BE
7		FOUND?
8	10.	As alluded to above, PWD has provided an updated Rate Rider Reporting Model
9		(updating Schedule RFC-3 filed with the proposed TAP-R filing) utilizing information
10		from a static copy of the basis2 database from March 31, 2025. The updated model is
11		marked as Schedule RFC-4. It contains actual TAP participation, consumption, and
12		discount figures through March 2025. ³
13		
14		Because observed TAP participation exceeded the Department's projected TAP
15		participation by nearly 8% in March 2025, the Department updated its projections to
16		incorporate new, known values for actual TAP participation. Additionally, to improve
17		clarity and focus on underlying trends, the Department elected to present a flat projection
18		of TAP participation over the Most Recent Rate Period, rather than incorporating month-
19		to-month variability as reflected in Schedule RFC-3. While TAP enrollment may
20		fluctuate modestly from month to month due to administrative and calendar-driven
21		factors, these variations do not meaningfully alter the cost trajectory of the program in the
22		Next Rate Period.

- 23
- 24

Please note that the above approach reflects the most recent data available and

³ The updated Rate Rider Reporting model (Schedule RFC-4) was provided pursuant to an information request of the Public Advocate (PA TAP-I-2).

acknowledges that, while modest growth in participation will likely occur, there are no known drivers that suggest a significant decrease in TAP participation during the Next Rate Period.

4

1

2

3

⁵ 11. FOR THE NEXT RATE PERIOD, HOW DO THE PROJECTED MONTHLY TAP PARTICIPANTS PROFFERED BY THE DEPARTMENT AND THE PUBLIC 7 ADVOCATE COMPARE?

8 11. In the proposed TAP-R filing (submitted in February 2025), the Department projected an 9 average monthly growth in TAP participation of 1% throughout the remainder of the 10 Most Recent Period, December 2024 through August 2025 (based on Schedule RFC-3). 11 In response, Mr. Morgan suggested in his testimony submitted on April 21, 2025 (based 12 on his analysis of data available at that time) that an average monthly growth rate of 13 -0.08% was anticipated.⁴ Please note that the Advocate's testimony predates RFC 14 Schedule RFC-4.

15

Examination of the most recently available TAP participation data (Schedule RFC-4) shows that TAP participation increased by 14% during the period November 2024 through March 2025. Based on the foregoing, an increase in TAP participation is supported in the record.

- 20
- As noted previously, the Department has elected to update its TAP projections for the Next Rate Period to reflect the most recently available information.⁵ The table below

25

 ⁴ Please note that, as a part of its discovery, the Public Advocate requested updated data concerning TAP participation and usage (through March 31, 2025). This data became available in late April (after Mr. Morgan's testimony was submitted) and was filed of record on April 29, 2025. Mr. Morgan also reserved the right to revise his testimony based on the updated data the Advocate requested during discovery.

⁵ See response to Question 10.

1

2

shows the projected number of TAP participants under the proposals presented by the Department and the Public Advocate.

PHILADELPHIA WATER DEPARTMENT PWD TAP Rebuttal Statement 1

				i .	
1		Average monthly	60,827	64,283	56,041
2		number of TAP			
3		participants (for			
4		Sep. 2025 through			
5		Aug. 2026)			
6		*PA projections are bas	ed on workpapers provid	led to support Mr. Morg	an's testimony and
7				ests (PWD-TAP-3) direct	
8				5 in Schedule RFC-4 are	
9		copy of the basis2 databasis2	base and reflects the actu	al numbers of TAP parti	cipants for each month.
10					
11					
12	12.	IN LIGHT OF TH	HE UPDATED DA	TA, DO YOU AC	GREE WITH THE
13		ADVOCATE'S PRO	OJECTED AVERA	GE MONTHLY N	NUMBER OF TAP
14		PARTICIPANTS FO	R THE NEXT RATE	PERIOD?	
15	12.	No. However, as noted	above, Mr. Morgan di	d not have the benefit	of updated data in
16		conducting his analysis	for the Advocate.		
17					
18	13.	PLEASE STATE T	HE BASIS FOR Y	YOUR DISAGREEN	MENT WITH THE
19		ADVOCATE'S PRO	OJECTED AVERA	GE MONTHLY N	NUMBER OF TAP
20		PARTICIPANTS FO	R THE NEXT RATE	PERIOD.	
21	13.	As can be seen in the t	able above, actual TA	P figures for Decembe	er 2024 through March
22		2025 reflect increasin	g TAP participation,	counter to Mr. Mo	rgan's assumption of
23		decreasing program p	participation during th	he projection period.	In fact, actual TAP
24		participation increased	d roughly 14% from	n November 2024 t	hrough March 2025.
25		Moreover, since there	are no known drivers	to suggest additional	significant changes to
20					

enrollment in the Next Rate Period, the Department's position remains that TAP
 participation will, at minimum, maintain its current level of participation through the
 Next Rate Period.

4

5 14. DOES THIS PANEL BELIEVE THAT THE ADVOCATE'S PROJECTED 6 NUMBER OF TAP PARTICIPANTS, IF ACCEPTED, WOULD BE GOOD FOR 7 PWD OR ITS CUSTOMERS?

14. No, this panel does not believe that establishing a TAP rate rider founded on Mr. 8 Morgan's projected number of TAP participants, if accepted, would be beneficial to PWD 9 or its customers. The projected number of TAP participants provided by the Advocate 10 assumes decreased program participation over time, an assumption contradicted by both 11 recent and long-term trends in TAP enrollment. The Advocate's under-projected figures 12 for TAP participation will act to depress the TAP rate rider, resulting in a continued 13 under-recovery of program costs. This revenue deficiency would further strain the 14 Department's financial position and necessitate future rate reconciliations to impose 15 higher TAP rider charges on PWD customers in order to recover previously unrecovered 16 costs. 17

- 18
- - -
- 19
- 20

AVERAGE TAP DISCOUNT PER PARTICIPANT

- 2115.THE PUBLIC ADVOCATE SUGGESTS THAT THE AVERAGE MONTHLY TAP22DISCOUNT THAT TAP PARTICIPANTS WILL RECEIVE IS \$47.26. DO YOU23AGREE?
- 24 15. No.

B.

25

1 16. PLEASE STATE THE BASIS FOR YOUR DISAGREEMENT WITH THE AMOUNT OF THE ADVOCATE'S AVERAGE TAP DISCOUNT PER PARTICIPANT.

4 16. The Advocate suggests using the most recent twelve months of actual data to calculate 5 the average discount. However, this would necessitate the inclusion of data from the 6 Reconciled Period, when lower base rates were in effect. A greater number of months' 7 data included in this figure does not equate to a more reliable figure. Rather, it is prudent 8 to reference only the most applicable period.

9

By restricting calculations for the average TAP discount per participant to the Most Recent Period, the Department's estimate reflects the most current trends in program participation, consumption, and billing. This provides the most accurate and forwardlooking basis for setting TAP-R rates.

14

15 17. WHAT AVERAGE MONTHLY TAP DISCOUNT SHOULD BE USED IN THIS 16 RATE PROCEEDING?

16 RATE PROCEEDING?
17 17. In the proposed TAP-R filing, the Department's estimated average monthly discount per

TAP participant was \$54.62. After adjusting this figure to reflect the most recently available data – December 2024 through March 2025 – the recommended average monthly discount per TAP participant is \$53.50 (Schedule RFC-4). This differs from the Department's original filing and is higher than the suggested average discount per TAP participant provided in the Advocate's testimony.

23

The updated average monthly TAP discount (\$53.50) is based upon the most recent available data for the Most Recent Rate Period. This period (September 2024 - March

- 1 2025) was selected so applicable data was included in the projection of the average 2 discount per TAP participant and to ensure that lower base rates from previously 3 reconciled periods did not adversely impact the reconciliation in this proceeding.
- 4

5 18. DOES THIS PANEL BELIEVE THAT THE AMOUNT OF THE ADVOCATE'S 6 AVERAGE DISCOUNT PER TAP PARTICIPANT, IF ACCEPTED, WOULD BE 7 GOOD FOR PWD OR ITS CUSTOMERS?

18. No, this panel does not believe that establishing a TAP rate rider founded on the 8 Advocate's suggested average discount per TAP participant, if accepted, would be 9 beneficial to PWD or its customers. The calculated average discount per TAP participant 10 suggested by Mr. Morgan involves the inclusion of multiple months from previously 11 reconciled periods which also experienced lower base rates. This artificially deflates the 12 value of the average discount per TAP participant, which would reduce the value of net 13 recoverable costs and lead to under-recovery of TAP program costs. These costs would 14 then need to be recovered through higher TAP rider rates in future TAP reconciliations. 15

- 16
- 17

C.

IMPLEMENTATION OF TAP RATES

18

19. HOW DO THE ADVOCATE'S PROJECTED TAP NET RECOVERABLE COSTS 20 COMPARE WITH THE DEPARTMENT'S PROJECTIONS?

19. The Advocate's projected TAP net recoverable costs of \$37,373,285 are significantly less
than the Department's projected TAP net recoverable costs of \$49,264,213 as stated in the
TAP-R filing. This is due to significant differences in underlying assumptions in two
primary areas: (i) projected TAP participation; and (ii) average discount per TAP
participant.

1		
2		The Advocate's projected net recoverable costs are more than 24% less than the
3		Department's and would result in a reduction in TAP-R rates for the Next Rate Period.
4		This outcome is not supported by the most recent data. Given the historical under-
5		recovery of TAP program costs – and that unreconciled deficits remain from prior periods
6		- it is not reasonable to suggest a TAP-R surcharge rate reduction in the current
7		environment.
8		
9		In fact, the Advocate's -0.08% monthly growth in TAP participation would understate
10		program participation by over 10% in March 2025 alone, resulting in material under-
11		recovery of costs even if all other assumptions were presumed to be accurate.
12		
13	20.	DO YOU HAVE ANY COMMENTS ON THE CALCULATIONS OF THE TAP
14		RIDER RATES USING THE ADVOCATE'S PROJECTED NUMBER OF TAP
15		PARTICIPANTS, AND MONTHLY CONSUMPTION PER TAP PARTICIPANT?
16	20.	By comparing the Advocate's projected average monthly program participation of 56,041
17		in the Next Rate Period against the Department's projection of stable participation at
18		64,283 per month (based on actual March 2025 participation), we estimate that the
19		Advocate under-projects TAP participation in the Next Rate Period by an average of more
20		than 8,200 participants per month. When this undercount is multiplied by the
21		Department's recommended average discount per participant of \$53.50, the resulting
22		shortfall in projected recoverable costs exceeds \$5.2 million for the Next Rate Period.
23		
24		

1 2 D.

UPDATED RECONCILIATION CALCULATIONS

2

3 21. WHAT IS THE IMPACT OF THE UPDATED DATA SET, AS REFLECTED IN 4 SCHEDULE RFC-4, ON THE RECONCILIATION CALCULATIONS?

5 21. As presented in Schedule BV-6, the updated actuals for December 2024 through March 6 2025, as well as the updated projections for April 2025 through August 2026 included in 7 Schedule RFC-4, show that the initial TAP-R filing⁶ understates the overall net 8 recoverable costs and resulting TAP-R surcharges rates. Table 1 in Schedule BV-6 shows 9 that all factors would need to be higher in order to establish rates to sufficiently reconcile 10 the existing costs (with the respect to the most recent and prior rate period), as well as 11 provide sufficient recovery of credits for the Next Rate Period.

12

Further, based upon the recommendations included in his testimony in this TAP-R annual adjustment, Mr. Morgan significantly underestimates all factors.⁷ His proposed TAP-R rates would lead to continued under-recovery of costs. To illustrate the above, a comparison of the initial TAP-R filing, Mr. Morgan's initial recommendations, and the updated reconciliation calculations are provided in the table below.

11	S - FACTOR Sewer (MCF)	5,040,140	5,040,140	4,976,897
12	Water TAP-R Surcharge (\$/MCF)	\$ 3.87	\$ 2.93	\$ 4.17
13 14	Sewer TAP-R Surcharge (\$/MCF)	\$ 5.67	\$ 4.30	\$ 6.10
15 22. DO YOU HAVE ANY ADDITIONAL COMMENTS REGARDING THE UPD. 16 RECONCILIATION CALCULATIONS? 17 22. Yes. As shown in the preceding table, it is clear that the Water Department's or request set forth in Schedule BV-6 is reasonable, as it is in line with the actual data attached schedule. 20 21				partment's overall

E. OTHER ISSUES 22 23 24 23. DO YOU HAVE ANY COMMENTS REGARDING THE ADVOCATE'S RECOMMENDATIONS TO UTILIZE THE WATER/WASTEWATER COST 25

1ALLOCATIONS AS APPROVED UNDER THE 2025 GENERAL RATE2PROCEEDING DETERMINATION?

Yes. First, we generally agree with the Public Advocate's recommendation that the water/ 23. 3 wastewater cost allocation determinations made in the current general rate case should be 4 reflected in the TAP-R determination. However, we would clarify the rate periods for 5 which current determination would apply. TAP-R reconciliations to date have applied the 6 water/wastewater cost allocation factors as codified in the rates and charges of each TAP-7 R rate period. Both the Department's and Mr. Morgan's schedules consistently reflect this 8 approach. The Department agrees that the codified water/wastewater cost allocation 9 factors reflected in the final rates and charges for the rate schedule effective September 1, 10 2025 should reflect the water/wastewater cost allocations reflected in the 2025 general 11 rate proceeding determination. 12

13

In the context of this TAP-R reconciliation proceeding, we recommend that the water/ wastewater allocations from the 2025 general rate proceeding be applied in context of the C-Factor. This will align future reconciliation of TAP discounts with the underlying base rates upon which they will be based.

18

With respect to the E-Factor and the I-Factor calculations in this proceeding, we recommend that the existing allocation between water and wastewater as reflected in rates in charges effective September 1, 2024, should continue to be used. This maintains the alignment of the reconciliation of TAP discounts with the underlying base rates upon which they are based.

- 24
- 25

24. DO YOU HAVE ANY COMMENTS REGARDING THE ADVOCATE'S 1 **RECOMMENDATIONS AS APPROVED UNDER THE 2025 GENERAL RATE** 2 **PROCEEDING DETERMINATION?** 3

24. Yes. First, we generally agree with the Public Advocate's recommendation that collection 4 factor determinations made in the current general rate case should be reflected in the 5 TAP-R determination. However, we would clarify the rate periods for which current 6 determination would apply. TAP-R reconciliations to date have applied the collection 7 factor as codified in the rates and charges of each TAP-R rate period. Both the 8 Department's and Mr. Morgan's schedules consistently reflect this approach. The 9 Department agrees that the codified collection factor reflected in the final rates and 10 charges for the rate schedule proposed to effective September 1, 2025 should reflect the 11 collection factor in the 2025 general rate proceeding determination. 12

13

In the context of this TAP-R reconciliation proceeding, we recommend that the proposed 14 collection factor included in the E-Factor from the 2025 general rate proceeding be 15 reflected in the next TAP-R reconciliation calculations (i.e., the 2026 TAP-R adjustment 16 proceeding). This aligns the reconciliation of future TAP discounts with the underlying 17 base rates upon which they will be based. 18

19

The collection factors, as reflected in rates in charges effective September 1, 2024, should 20 be used in the current TAP-R adjustment proceeding, specifically in the calculation of the 21 E-Factor [and E-Factor Prior], such that the reconciliation of actual TAP discounts and 22 estimated TAP-R revenues aligns the underlying base rates currently in effect. In other 23 words, we recommend that the collection factors utilized in the calculations align with 24 those utilized in establishing the corresponding base rates. 25

1

2 25. HOW ARE THE BASE RATE PROCEEDING COLLECTION FACTOR 3 DETERMINATIONS REFLECTED IN THE TAP-R RECONCILIATION?

25. The cumulative total of the collection factors reflected in the base rate proceeding 4 determinations are reflected in the TAP-R reconciliation as a representation of the TAP 5 Credits and TAP-R collections included in the system wide collection factors. It should 6 be noted that this represents a simplified application for reconciliation purposes and 7 overstates the TAP-R collections by applying the total cumulative collection factor to the 8 current TAP-R billings in order to estimate TAP-R revenues. The total cumulative 9 collection factor reflects that receipts of current year billings are received over multiple 10 years and estimated in a three-year pattern. In reality, portions of the current year 11 receipts are based on prior year billings which are based on prior year rates and are 12 typically lower than current year billing levels. Therefore, applying the total cumulative 13 collection factor to the current year TAP-R billings overstates TAP-R receipts. The 14 Department accepts this simplified approach for reconciliation purposes but maintains its 15 position that revenue adjustments to base rate revenues for TAP-R billings is unmerited in 16 light of the over statement of collection of TAP-R billings represented in the TAP-R 17 reconciliations. 18

- 19
- 20

III.

CONCLUSION

21

22 26. WHAT IS YOUR OVERALL RECOMMENDATION WITH RESPECT TO 2025 23 TAP ADJUSTMENT?

26. We recommend that (i) the projected average monthly TAP participation for the Next
Rate Period equal 64,283 participants per month, and (ii) the average discount per TAP

1		participant equal \$53.50 per month. These calculations incorporate the most recent
2		available data and combine it with a simplified projection of TAP participation to
3		conservatively forecast TAP participation and cost in the Next Rate Period. For that
4		period, we are not aware of any significant drivers which would be expected to
5		significantly alter TAP participation from current levels.
6		
7		Please note that PWD remains open to discussions of a possible settlement in this
8		proceeding that takes into account the most recent data concerning TAP enrollment and
9		usage through March 2025.
10		
11	27.	DOES THIS CONCLUDE YOUR REBUTTAL TESTIMONY?
12	27.	Yes.

Notes:

(a) - Actuals (e) - Estimated

(1) - TAP Actual Discounts reflect water's 42.0% allocated portion of the Total TAP Discount.

(2) - Estimated TAP Discount per participant and estimated billed sales volume per participant reflect projections developed by Raftelis. Refer to RFC-3.

(3) & (6) - Water TAP-R Rates per PWD Regulations - Rates and Charges Effective September 1, 2024 Section 10.3(a)(1).

(4) & (7) - Adjusted for system-wide collection factor in accordance with PWD Regulations - Rates and Charges Effective September 1, 2024 Section 10.1(b)(3).

(5) - Estimated Non-TAP water sales volumes for April 2025 through August 2025 are based upon average sales for prior 12 month period.

(8) - Over/(Under) Collection is based upon Rates that are inclusive of Prior E-Factor and I-Factor. The presented "Prior E & I Factor Adjustments" includes these amounts from 2024 Annual Rate Adjustment.

Notes:

(1) - TAP Actual Discounts reflects sewer's 58.0% allocated portion of the Total TAP Discount.

(2) - Updated TAP Discounts and billed sales volume to reflect actuals for April 2024 through August 2024 as provided by Raftelis. Refer to Schedule RFC-3.

(3) & (6) - Sewer TAP-R Rates per PWD Regulations - Rates and Charges Effective PWD Regulations - Rates and Charges Effective September 1, 2023 Section 10.3(b)(1).

(4) & (7) - Adjusted for system-wide collection factor in accordance with PWD Regulations - Rates and Charges Effective September 1, 2023 Section 10.1(b)(3).

(5) - Updated to reflect actual billed water sales volumes for April 2024 through August 2024.

(8) - Updated Over/(Under) Collection

(9) - Over/(Under) Collection for September 2023 to August 2024 as calculated during the prior TAP-R Reconciliation Determination.

(10) - Difference between Updated Over/(Under) Collection and Original Estimates.

Notes:

(1) Difference in collection from Total of Column 8 - Table 3-WW-A.

(3) Interest calculated monthly based on 1-year interest rate for constant maturity U.S. Treasury Securities as published in the Federal Reserve Statistical Release H.15 (519) on January 02, 2024.

(4) Difference in collection from Total of Column 8 - Table 3-WW (Prior Reconciliation).

	Table 5 - Application of TAP	Rate	Rider Adjustmen	t Eff	ective Septembe	er 1	, 20	25
			Base	Т	AP-R Surcharge	е		Total
	Rates		Proposed		Proposed			Total
	Water Quantity Charges		(\$/Mcf)		(\$/Mcf)			(\$/Mcf)
1	0 to 2 Mcf	\$	72.45	\$	4.	17	\$	76.62
2	2.1 to 100 Mcf	\$	64.76	\$	4.	17	\$	68.93
3	100.1 to 2,000 Mcf	\$	50.16	\$	4.	17	\$	54.33
4	2,000 + Mcf	\$	50.16	\$	4.	17	\$	54.33
	Sewer Quantity Charges		(\$/Mcf)		(\$/Mcf)			(\$/Mcf)
5	Sewer Volume Rate	\$	47.39	\$	6.	10	\$	53.49

Notes:

Proposed Base Rates reflect the quantity charges, per the FY 2026 and FY 2027 Rate Proceeding.

TAP-R Rates are proposed to be effective on September 01, 2025.

The final quantity charges (including the TAP-R surcharge) will be in the final PWD Rates and Charges, if approved.
