Environmental Health Services Mission Statement:

The mission of Environmental Health Services (EHS) is to ensure that the environment of the city is safe and healthful. This mission is accomplished through regulation and inspection programs of food establishments, schools, boarding homes, residential care facilities, and other public places. This mission is also accomplished through rodent, insect, and animal control programs, and the evaluation and control of water supplies, sewage disposal systems, and solid waste handling, including hazardous and infectious waste. Under state and local laws, EHS is required to enforce statutes, conduct educational programs, provide remediation, maintain records, and, where appropriate, issue or approve permits.

Philadelphia Department of Public Health Mission Statement:

The mission of the Department of Public Health is to protect the health of all Philadelphians and to promote an environment that allows us to lead healthy lives. We provide services, set policies, and enforce laws that support the dignity of every man, woman, and child in Philadelphia.

The *Philadelphia Regulations Governing Food Establishments* require any food establishment that handles, prepares, or serves non-prepackaged potentially hazardous food to have present and in the employ of the food establishment at all hours of operation at least one (1) person with a valid Food Establishment Personnel Food Safety Certificate issued by EHS. To obtain this certificate, one must successfully complete a Food Safety Manager Training course from one of the approved providers noted in the lists below.
