

Cheltenham Avenue Corridor Study

Paper Mill Road to Ogontz Avenue

Do you travel along Cheltenham Avenue?

What would you change to make it safer for all users?

A corridor study is underway that will consider recommendations for roadway configuration, reducing speeding, and other solutions to make the road safer for people who walk, drive, bike, or roll.

We need your input!

Help guide the study by taking the survey and adding your concerns to the interactive map.

Get involved & stay informed!

Check out the project website for more information and stay tuned for upcoming ways to get involved, including an upcoming public meeting.
