

# CELL TOWER TAX FOR SCHOOLS

- Proposed modification to the tax calculation for cell towers under the **Use & Occupancy Tax**.
- Estimates show it would generate an **additional \$2.4 Million annually for the School District**.

A SMALL MODIFICATION COULD GENERATE AN ADDITIONAL **\$2.4 MILLION** ANNUALLY FOR THE SCHOOL DISTRICT AND OUR CHILDREN.

## WHY IT'S NECESSARY

Big telecom companies lease rooftop space to place metal antenna “contraptions” on the tops of buildings across the city. That’s taxable business activity in the City of Philadelphia.

## WHO BENEFITS

If this adjustment in how the U & O tax on cell towers is approved, it will generate much needed revenue to support our schools.
