Subject: My water pipes

Us there a reason That the water company won't put new water pipes on my street. I live on the 400 block of N Felton street 19151. I been Living here since 1967 In this block, the water pipes have never been changed. They've been changed in all the other blocks in the neighborhood, but not this block and I would like to know why. Can someone please tell me WHY?
