The project will consist of three separate buildings: one multifamily building with 34 units and two triplexes. Nayda Cintron Apartments will include a 10-car parking lot, a landscaped courtyard, indoor community space for residents, elevators, stormwater management infrastructure, and offices for support staff. The ERR is available to review and copy in person at this address. ## **PUBLIC COMMENTS**

Any individual, group, or agency may submit written comments on the ERR to the City of Philadelphia. All comments received by May 22, 2026, will be considered by the City prior to authorizing submission of a request for release of funds. Comments should specify which Notice they are addressing.

## **ENVIRONMENTAL CERTIFICATION**

The City of Philadelphia certifies to HUD that Jessie Lawrence, in his capacity as Director of the Philadelphia Department of Planning and Development, consents to accept the jurisdiction of the Federal Courts if an action is brought to enforce responsibilities in relation to the environmental review process and that these responsibilities have been satisfied. HUD's approval of the certification satisfies its responsibilities under NEPA and related laws and authorities and allows the Philadelphia Housing Authority to use Program funds.

HUD will accept objections to its release of funds and the City's certification for a period of 15 days following the anticipated submission date or its actual receipt of the request (whichever is later) only if they are on one of the following bases: (a) the certification was not executed by the Certifying Officer of the City (b) the City has omitted a step or failed to make a decision or finding required by HUD regulations at 24 CFR part 58; (c) the grant recipient or other participants in the development process have committed funds, incurred costs or undertaken activities not authorized by 24 CFR Part 58 before approval of a release of funds by HUD; or (d) another Federal agency acting pursuant to 40 CFR Part 1504 has submitted a written finding that the project is unsatisfactory from the standpoint of environmental quality.
